

# One Size...DOESN'T FIT ALL!

Since 1976, Marsh Rail Car Services has been forging long-lasting relationships with tank car leasing organizations, tank car contract repair facilities, and companies with their own tank car fleet operations. Over 4 decades of experience has resulted in a service company that anticipates the changing needs of the industry and is innovative enough to design approaches to meet the most demanding of customer challenges.

Over time, Marsh has continued to grow and has played a major role in the improvement of valve repair quality, safety, and value. Considered experts in valve repair, each valve undergoes a rigorous inspection process by high-skilled technicians maintaining the strictest of quality control measures from our 12,000 square foot shop facility, centrally located just west of St. Louis, MO. The state-of-the-art facility is designed to advance technician efficiencies, ensure quality, increase shop throughput to reduce turnaround times, at a competitive cost to the client.

**All brands of valves are brought to meet or exceed OEM quality. But now customers need more choices than ever to meet their changing needs. Marsh is committed, more than ever, to offer service programs that save money, time, and headaches. Unlike our competition, Marsh Rail Services, Inc. realizes...NO ONE VALVE REPAIR PROGRAM FITS ALL!**
